

Shell Scripting Day 1 Assignment

1. Create a directory with your name,

```
sneha_mhasalkar@cloudshell: ~/Assignment_Shell$ cd ..  
sneha_mhasalkar@cloudshell:~$ mkdir sneha  
sneha_mhasalkar@cloudshell:~$ cd sneha
```

create a read-only file in your home directory and add the text below in your file:

This is my first file.

Line 1

Line 2

Line 3

Line 4

Line 5

6

7

8

9

10

```
sneha_mhasalkar@cloudshell:~/sneha$ vi file1.txt  
sneha_mhasalkar@cloudshell:~/sneha$ cat file1.txt  
this is my first file  
line 1  
line 2  
line 3  
line 4  
line 5  
6  
7  
  
8  
9  
10
```

Create a copy of file created above and name it as “copy_of_file1.txt”

```
sneha_mhasalkar@cloudshell:~/sneha$ cp file1.txt copy_of_file1.txt
```

2. Count the number of characters, words and lines in this file.

```
sneha_mhasalkar@cloudshell:~/sneha$ wc file1.txt  
13 20 71 file1.txt
```

3. To view a list of all the users who have currently logged in?

```
sneha_mhasalkar@cloudshell:~/sneha/test$ users
sneha_mhasalkar@cloudshell:~/sneha/test$
```

4. Create a new directory named “test” in your home directory.

```
sneha_mhasalkar@cloudshell:~$ cd sneha
sneha_mhasalkar@cloudshell:~/sneha$ mkdir test
```

- a. Copy file you created to the test directory

```
sneha_mhasalkar@cloudshell:~/sneha$ cp file1.txt test/
```

- b. Move the file “copy_of_file1.txt” you created to the test directory

```
sneha_mhasalkar@cloudshell:~/sneha$ mv copy_of_file1.txt /test
```

5. Display content of the file on the screen copy_of_file1.txt ?

```
sneha_mhasalkar@cloudshell:~/sneha/test$ cat copy_of_file1.txt
this is my first file
line 1
line 2
line 3
line 4
line 5
6
7

8
9
10
```

6. List different ways you can copy the content of the file copy_of_file1.txt to the file copy_of_file2.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cat one1.txt > file.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cp one1.txt file2.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cat file.txt
this is file one1.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cat file2.txt
this is file one1.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$
```

7. To view the list of Commands executed?

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ history
1  ls
2  mkdir folder1
3  cd downloads
4  D:
5  cd D:\
6  pwd
```

8. Create directories in your home directories and files as shown below:

<your home directory>/assignment/day1/one/two/three/four/five/

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four$ cd five
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four/five$
```

In the directory one, create files one.txt one1.txt one11.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ cd ..
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one$ vi one.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one$ vi one1.txt
```

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one$ vi one11.txt
```

In the directory two, create files two.txt tow2.txt two22.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one$ cd two
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ vi two.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ vi two2.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ vi two22.txt
```

In the directory three, create files three.txt three3.txt three33.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ cd three
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three$ vi three.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three$ vi three3.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three$ vi three33.txt
```

In the directory four, create files four.txt four4.txt four44.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three$ cd four
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four$ vi four.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four$ vi four4.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four$ vi four44.txt
```

In the directory five, create files five.txt five5.txt five55.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four$ cd five
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four/five$ vi five.txt
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two/three/four/five$ vi five5.txt
```

In the file one.txt add the text: This is file one.txt
In the file two.txt add the text: This is file two.txt
In the file three.txt add the text: This is file three.txt
In the file four.txt add the text: This is file four.txt
In the file five.txt add the text: This is file five.txt

Display the content from one.txt, two.txt, three.txt, four.txt, finve.txt in the format below:

This is file one.txt
This is file two.txt
This is file three.txt
This is file four.txt
This is file five.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cat one/one.txt  
one/two/two.txt one/two/three/three.txt one/two/three/four/four.txt  
one/two/three/four/five/five.txt  
this is the file one.txt  
this is file two.txt  
this is file three.txt  
this is the file four.txt
```

this is file five.txt

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1$ cat one/one.txt one/two/two.txt one/two/three/three.txt one/two/three/four/four.txt one/two/three/fou  
r/five/five.txt  
this is the file one.txt  
this is file two.txt  
this is file three.txt  
this is the file four.txt  
  
this is file five.txt
```

9. Write commands to get the current date, time, username and current working directory.

```
sneha_mhasalkar@cloudshell:~/sneha/assignment/day1/one/two$ date;pwd;whoami  
Wed Jun 17 10:10:21 AM UTC 2026  
/home/sneha_mhasalkar/sneha/assignment/day1/one/two  
sneha mhasalkar
```
